

# edvanto academy Summer Winds

Keeps The Learning Flowing & The Mind Moving During The Summer Break

Summer Winds is a math enrichment program from edvanto academy, the not-for-profit arm of edvanto, the digital learning platform company. This online program was designed for middle school students (rising 6th—8th) to review their prior year content, learn the content for the upcoming year, or learn advanced material.

According to research, children experience a 'summer slide', when they are out of school for summer break, negatively affecting their academic performance. The Summer Winds program is **designed to prevent and reverse** the summer slide and help students improve learning outcomes (see chart).

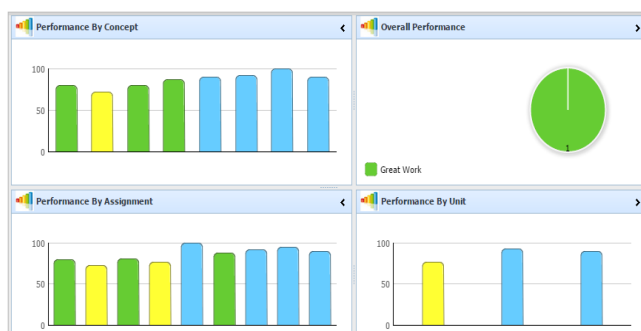

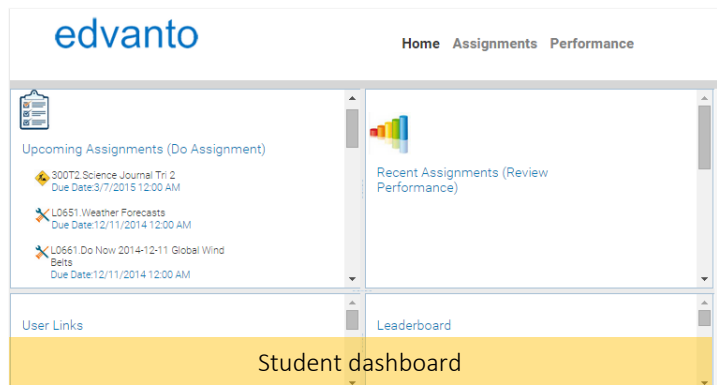

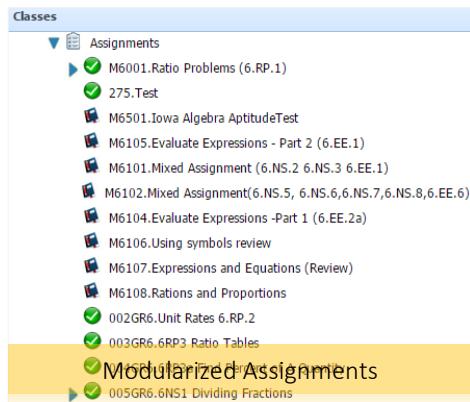

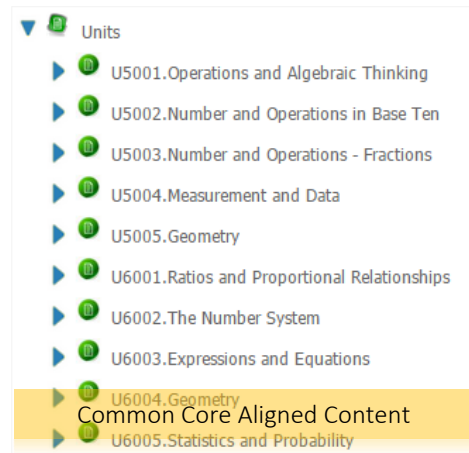

## Program Benefits & Features

- Just 1 hr day, divided into 20 minute blocks
- Research based instructional techniques
- Short video lectures, stress free practice problems
- Individualized learning plan for each student
- Diagnostic assessments for individualized differentiation
- Self paced, self directed
- Sub dived by specific topics, for targeted instruction
- Immediate online feedback, Q&A
- Common Core aligned, integrated with STEM (NGSS)
- Real World applications and projects to make learning relevant and fun
- Performance Monitoring
- Daily & Weekly progress reports
- Access the program from anywhere with an internet connection. Home, library, in the car, on vacation.
- Focus on numeracy and math literacy
- Reflective writing to improve conceptual learning
- Develop habits of the mind: discipline, self sufficiency, grit
- Peer based support and learning
- Improves self confidence in girls to learn math and science

**Review for Retention & Recall! Practice for Procedural Performance!**

- Targeted questions for learning and understanding
- Closed response (True/False, Multiple Choice), Fill in the blank, Open response (Short answers, paragraphs), combination of any of the above.
- Open response questions contains teacher scoring with comments.
- Questions can be text, audio, video, presentation, website, links to any content on the internet etc.
- Optional timer for timed tests
- Four level of progressive hints to assist student learning and provides just in time instruction.
- Each click for a hint is recorded and reported, can be used to determine practice assignments & mastery.

- Detail performance reporting for parents
- Edvanto monitors performance learning outcomes and tracks against personalized learning plan
- Student performance feedback is immediate for non-teacher graded questions.
- Teacher graded questions contains individualized feedback.
